

Portland Hotel Society

To Whom It May Concern:

On behalf of all the residents and the staff at the Onsite Detox Center and Transitional Recovery Housing I would like to extend my greatest thanks to Christopher James for donating his time, energy, and talent. His performance last Saturday was a huge success and allowed the residents here to experience something amazing and share with each other some laughs and a good time.

The residents have yet to stop talking about Christopher's performance and with that being said we are hoping that Christopher will once again share his talent with Onsite in the near future. He by far was one of our most successful guests here, bewildering the minds of his audience, and for an hour and a half he held everybody's complete and utter attention.

The residents who are staying with us have a wide range of personalities, disabilities and backgrounds and they all found a common appreciation during this bewildering performance. I would recommend Christopher's performance to anybody, for any occasion, and for any group of people.

Sincerely,

Liz Moss
Onsite Program Manager
